10.1. 1 Controller/Contact

The Controller as defined under the data protection laws is

Koelnmesse GmbH
Messeplatz 1
50679 Cologne, Germany

Our Data Protection Officer can be contacted as follows:
datenschutz-km@koelnmesse.de

For trade fairs outside Germany, our Data Protection Officer can be contacted as follows:
dataprivacy@koelnmesse.de

2 Your rights as data subject

If your personal data are processed, you are a data subject as defined in the GDPR and you have the following rights with respect to the Controller:

Right of objection

You have the right to file an objection at any time against processing of your personal data, carried out on the basis of Art. 6 (1) sentence 1 lit. e) or f) GDPR, for reasons resulting from your particular situation. This also applies to any Profiling based on these provisions.

The Controller will then no longer process your personal data, unless he/she can demonstrate compelling reasons for the processing warranting protection, and these prevail over your interests, rights and liberties, or if the processing is for the purpose of asserting, exercising or defence of legal entitlements.

If your personal data are processed in order to carry out direct advertising, you have a right to file an objection at any time against the processing of your personal data for the purpose of such advertising. This also applies to Profiling insofar as it is connected with such direct advertising.

If you object to processing for the purpose of direct advertising, your personal data will no longer be processed for these purposes.

In connection with the use of services of the information society and notwithstanding Directive 2002/58/EC, you have the possibility of exercising your right of objection via automated procedures that use technical specifications.

You can demand **information** on whether we process personal data concerning you. If such processing is carried out, you can demand further information on this processing, in particular the purposes, categories of personal data, recipients or the categories of recipients, planned storage duration etc.

You have a right to **correction** and/or completion of your data

You can demand the **restriction of the processing** of your personal data under certain circumstances: If the processing of your personal data has been restricted, these data — with the exception of their storage — can only be processed with your consent, or for the assertion, exercise or defence of legal entitlements, or to protect the rights of another natural or legal person, or for reasons of an important public interest on the part of the EU or a member state.

Under certain circumstances, you can demand the **erasure** of the personal data concerning you. If the Controller has made your personal data public and is obliged to erase them, he/she shall, with consideration for the available technology and implementation costs, take appropriate measures, including of a technical nature, to inform Controllers, responsible for the data processing and processing the personal data, that you, as data subject, have demanded that they delete all links to these personal data, or have demanded the deletion of copies or replications of these personal data.

If you have asserted the right of rectification, erasure or restriction of processing with respect to the Controller, the latter is obliged to inform all recipients, to whom your personal data have been disclosed, of this rectification or erasure of the data or of the restriction of processing, unless this proves to be impossible or involves disproportionate expense. You have a right with respect to the Controller to be **informed** of these recipients.

You have a right to **receive** your personal **data**, provided by you, in a structured, commonly-used and machine-readable format. You also have a right to insist that these data be transferred directly to another controller, insofar as this is technically possible. Liberties and rights of other persons must not be impaired as a result.

You have the right to **revoke** your data protection **declaration of consent** at any time. Revocation of the consent shall not affect the legality of the processing, carried out on the basis of the consent, up until the revocation. Within certain limits, you have the right not to be subjected to a decision, based exclusively on automated processing — including Profiling — that is legally effective against you or that significantly impairs you in a similar manner.

3 Right to complain to a supervisory body

Notwithstanding any other administrative-law or judicial remedy, you have a right to complain to a supervisory authority, in particular in the member state of your residence, your place of work or the place of the suspected violation, if you are of the opinion that the processing of your personal data violates the GDPR.

The supervisory body with which the complaint has been filed, will inform the complainant of the status and the results of the complaint, including the possibility of a judicial remedy pursuant to Art. 78 GDPR.

4 Information in the event of data collection via third parties

If we collect your personal data via third parties, this can involve the following categories of personal data: name, contact data as well as further information, for example concerning your responsibilities. If we do not receive these contact data directly from you, we receive them from the company for which you work and/or with which we are in contact. This can involve in particular an exhibitor or another cooperation partner with which we exchange services.

The possibility also exists of us receiving your contact data from commercial agents working for us.

5 Purposes and legal basis of the processing

a) If you conclude a contract with us, we process your data for contract initiation, execution and settlement. This concerns the purchase of tickets as well as the contractual relationship as exhibitor, if you are acting as a natural person, for example businessman, in this respect. This also includes the creation of user accounts on the platforms offered by us, unless a separate data protection notice on the handling of your data is provided there. The data processing can also be for the purpose of administering your participation in an event or competition.

The legal basis for the handling of your data is Art. 6 (1) sentence 1 lit. b) GDPR, if this handling concerns the contractual exchange of services with you.

b) We may possibly also process data on you even if you yourself are not a customer, but rather a contact person of a business or cooperation partner.

In this respect, the legal basis for the handling of your data is Art. 6 (1) sentence 1 lit. f) GDPR.

c) We process your data in order to provide you with the accreditation for this event. If you have given your consent during accreditation, your data will be

used to send you press information. To do so, your data will be stored in our database even after the event is over.

The legal basis for the handling of your data is Art. 6 (1) sentence 1 lit. b) GDPR, if this handling concerns the contractual exchange of services with you. Insofar as you have given your consent to the sending of press information, Art. 6 (1) sentence 1 lit. a) GDPR is the legal basis for the handling of your data. You can revoke such consent at any time with effect for the future.

d) We also process data for other purposes that are in our interests, specifically in order to:

- provide you with product information concerning relevant products and services.
- carry out measures aimed at improving and developing services and products, so as to be able to approach you individually with customised offers and products.
- carry out market and opinion research, or have this carried out by market and opinion research institutes. This enables us to obtain an overview of the transparency and quality of our products, services and communication, and to align or design these in the interests of our customers.

The legal basis for this handling of your data is Art. 6 (1) sentence 1 lit. f) GDPR, § 7 (3) UWG as well as Art. 6 (1) sentence 1 lit. a) GDPR, provided you have issued consent. You can revoke any such consent at any time with effect for the future.

e) As far as your data are collected exclusively for the purpose of traceability of new infections with the Coronavirus SARS-CoV-2, the legal basis for the handling of your data is § 2a CoronaSchVO NRW.

6 Justified interest

If we use data within the framework of the above weighing-up of interests, our justified interest lies in enabling direct advertising (see Recital 47 GDPR), provided your privacy-law interests do not outweigh our advertising interests in each individual case.

If we use data in the context of contract initiation or fulfilment with a business or cooperation partner, our interest when handling your data lies in enabling and maintaining a dialogue with the respective business or cooperation partner, typically within the framework of a contractual or other relationship. If you act as contact person in this respect — typically in your function as employee of these companies — you typically have no opposing interest if this interaction with us is part of your work duties.

7 Recipients of your data

If and insofar as you have issued us with corresponding consent, we shall forward your data within the limits of this consent.

We shall also forward your data to service providers who are bound by instructions and whose work supports the provision of our services for you, on our behalf and in accordance with our instructions. These can be IT service providers, print service providers, call centres if you call in, and similar service providers. In addition, we pass on your data to third parties if and insofar as this is necessary to fulfil the contract concluded with you and order processing is out of the question.

In individual cases we also forward your data to third parties who use the data on their own responsibility: finance and tax authorities, police and investigation authorities (given the existence of a legal basis), official registration bodies (if forwarding is prescribed by law), insurance companies, banks and lending institutions (payment processing), market partners, commercial agents, auditors, lawyers, accountants or similar third parties.

8 Transfer of data to a third country

The transfer of data to third countries is planned if this is necessary for fulfilment of a contract, or if you issue us with express consent to forward the data to third parties.

If we transfer your data to service providers or group companies outside the European Economic Area (EEA), the transfer will only be made if the third country has been certified by the EU Commission as having an adequate level of data protection (Art. 45 (1) GDPR), or given the existence of other adequate data protection guarantees as defined in Art. 47 GDPR.

9 Duration of the storage of your data

If we have received your data for the processing of the contractual relationship with you as ticket purchaser or as natural person, as exhibitor, or for the purpose of an advertising approach or for the processing of your participation in an event or competition, we shall store your data and shall erase these after the event or when the contractual relationship with you has ended, when all reciprocal claims have been fulfilled and if no other statutory retention obligations or statutory justifying reasons for the storage exist. If you have a user account, your user data will be stored until this user account is deleted.

If we have collected your data solely on the basis of the CoronaSchVO NRW, these data will be stored or deleted in accordance with the periods resulting from this regulation.

If you have given us your consent (e. g. to receive information on products and services or press releases), we will store your data until you revoke your consent.

Retention obligations exist in particular under the German Commercial Code (HGB) and the German Tax Code (AO). If such obligations apply and concern documents with your data, we shall erase your data upon expiry of the statutory retention obligations. As a rule therefore ten years from the end of the year in which the contractual relationship with you has ended.

If we use your data in the context of the contract initiation or fulfilment with a business or cooperation partner, we shall store your data and shall erase them as soon as these are no longer required, for example if our relationship with the business or cooperation partner ends, if you yourself no longer act as contact person or similar.

10 Necessity of providing your data

The provision of the data by you and the collection of the data by us for the processing of the contractual relationship with you as ticket purchaser or as natural person or as exhibitor, is necessary for conclusion of the contract. Without the data we cannot conclude a contract with you or provide invoicable services. This also applies if you wish to create and use a user account or to be accredited as a media representative.

The same applies in cases in which you wish to be approached by us for advertising purposes, or wish to participate in events or competitions.

If we collect your data in the context of contract initiation or fulfilment with a business or cooperation partner, the provision of the data is typically necessary for the contractual relationship with the company for which you work; we would be typically unable to provide services without the data.

11 Automated decisions in individual cases or Profiling measures

No automated decision making or profiling takes place, neither for the creation and execution of the contractual relationship with you, nor for advertising approaches, nor for the processing of your participation in events or competitions.

If you have a user account on one of our platforms and are logged in there, we evaluate your interests on the basis of the actions you have taken in order to send you information on products and services tailored to your interests. An automated decision making process does not take place.

(last amended 15 September 2020)

ANNEXI - Term of consent for the use and processing of data and provisions related to the brazilian general personal data protection law (LGPD, LAW 13.709/2018)

Signature is mandatory due to Brazilian law.

1. Controller and Data Protection Officer

The Controller in the sense of the Brazilian general personal data protection legislation (LGPD) is Koelnmesse Organização de Feiras Ltda.

The Personal Data Protection Officer (DPO), in accordance with LGPD, can be contacted at: dpo@koelnmesse.com.br. Contact data can be found at: www.koelnmesse.com.br/dpo.

2. Consent to the use and processing of personal data by the Data Holder

In order to achieve the object of this contract, the Controller must perform the data processing of the Holder for the purposes set forth in item 5a, either at the time of signing this contract, or during its execution and after its finalization, in physical and electronic form. By means of this term, the Holder consents to the use and treatment of his/her personal data for the purposes set forth in item 6, observing the other stipulations of this term.

3. Rights as Holder of Personal Data

When personal data is processed, its Holder has the following rights in relation to the Controller, pursuant to article 18 of LGPD:

- I - confirmation of the existence of treatment;
- II - access to data;
- III - correction of incomplete, inaccurate or outdated data;
- IV - anonymization, blocking or elimination of unnecessary, excessive or treated data that does not comply with the provisions of the LGPD;
- V - portability of data to another service or product supplier, upon express request, in accordance with the regulations of the Brazilian national authority, observing commercial and industrial secrets;
- VI - elimination of personal data processed with the consent of the Holder, except in the cases provided for in article 16 of the LGPD;
- VII - information from public and private entities with which the controller has made shared use of data;
- VIII - information about the possibility of not providing consent and about the consequences of the negative;
- IX - revocation of consent, pursuant to § 5 of article 8 of the LGPD.

The Controller shall no longer process the Holder's personal data unless he/she can prove compelling legitimate reasons for maintaining such processing and that they override his/her interests, rights and freedoms, or when the processing of such data serves the purpose of claiming, exercising or defending its own rights (article 7, clauses II, VI, VII, IX and X of the LGPD).

If personal data are processed to carry out direct advertising, the Holder has the right to object at any time to the processing of his personal data for the purposes of such advertising; the same is valid for the classification of profiles while linked to such direct advertising. If the Holder objects to the processing of his/her personal data for the purposes of direct advertising, his personal data will no longer be processed for these purposes.

Should the Holder have claimed the right to correction, deletion or restriction of the treatment before the Controller, the latter is obliged to communicate such correction or deletion of the data or the restriction of the treatment to all the recipients with whom the personal data in question have been shared, unless it is proven to be impossible or subject to disproportionate expenses. The Holder has the right to be informed by the responsible person about these recipients.

The Holder has the right to receive his personal data, made available by him/her, in a structured, usual and readable written format, in physical or digital media. This process shall not cause damages to the freedoms and rights of third parties.

The Holder has the right to revoke his declaration of consent regarding the processing of data at any time. The revocation of his consent shall not affect the legality of the processing of personal data carried out on the basis of the consent until its revocation.

4. Right to complain to the Brazilian National Data Protection Authority

Without prejudice to any other administrative or judicial appeal, the Holder has the right to submit a complaint to the Brazilian National Data Protection Authority (ANPD), if he/she considers that the processing of his/her personal data violates the LGPD and after proving the submission of a complaint to the Controller, who did not resolve the matter within the period established in regulation (article 55-J, LGPD).

5. Information in case of data collection via third parties

If the Controller collects the Holder's personal data through third parties, the following categories of personal data can be handled: name, contact data as well as other professional information, for example, about his area of responsibility.

If these contact details have not been received directly from the Holder, they will be received from the company for which the Holder works and/or with which the Controller is in contact. This may be, in particular, an exhibitor or also another cooperation partner with whom the Controller conducts transactions. In addition, there is the possibility that the Controller receives contact data from the Holder also from commercial representatives working for the Controller.

In all these cases, the Controller only uses the personal data within the limits and for the purposes of processing that the Holder has consented to by allowing sharing between the third party and the Controller.

6. Purposes and legal basis for the processing of the Holder's personal data

The Controller performs the Holder's personal data processing for the preparation and negotiation, execution and billing of the contract signed between the parties. This applies to the acquisition of tickets, but also to the contractual relationship as an exhibitor, as long as the Holder is acting as an individual, for example, as an entrepreneur. The processing of personal data may also be carried out for the purpose of processing the Holder's participation in an event or contest. The legal basis for processing the data of the Holder is art. 7, paragraph V of LGPD, provided that such processing refers to the contractual relationship with the Holder.

The Controller shall also process the Holder's personal data obtained through sharing with commercial partner(s) or cooperation of the Controller, for which the Holder provides his express consent in the form of art. 7, item I of LGPD.

The Controller also processes data for other purposes, specifically for:

- to provide information on relevant services to the Holder and/or his company.
- carry out actions for the improvement and development of services and products to offer an individual approach with offers and customized products to the Holder and/or his company.
- carry out market and opinion surveys or allow market and opinion survey institutes to do so. In this way, the Controller obtains an overview of the transparency and quality of products, services and communication and can adjust or elaborate them according to the clients' interests.

The legal basis for this treatment of your data is article 7, item 1, of LGPD, for which the Holder grants, by this term, his express consent. The Holder may revoke such consent at any time, with future effect, by contacting the DPO, according to the contact data contained in item 1.

7. Legitimate interest

The Controller's legitimate interest lies in the holding of the event in accordance with the terms of the contract signed between the parties and in the feasibility of direct advertising/promotion, as per article 10, item I of LGPD, provided that the Holder's personal interests do not predominate over advertising interests in each particular case.

To the extent that the Controller uses data in the context of the preparation and negotiation or execution of a contract with a commercial or cooperation partner, the Controller's legitimate interest in processing the Holder's data resides in the feasibility and maintenance of the exchange with the respective commercial or cooperation partner, normally in the context of a contractual relationship or of a similar nature. Since the Holder performs his role as interlocutor and/or collaborator of these companies, the Holder does not present any conflicting interest, as this interaction with the Controller is part of his/her attributions.

8. Sharing and recipients of shared data

By this term, the Holder grants the Controller consent to transmit his/her data to service providers subject to instructions from the Controller, who, by their actions, collaborate in the provision of services to the Holder on behalf of the Controller and under its instructions. These third parties may be technological, printing, public relations, press relations, call centers in the case of your telephone number, or similar service providers.

In particular cases we also pass on the Holder's data to third parties who make use of the data under their own responsibility: financial and tax authorities, police and investigation authorities (based on the legislation in force), public registration offices (provided that the transfer is legally mandatory and/or authorized), insurance companies, banks and credit institutions (payment processing), market partners, commercial representatives, accounting inspectors, lawyers, auditors and other similar third parties related to the business relationship between the Holder and the Controller.

Exhibitor / Contractor

9. Consent to transfer data to a third country

Through this term, the Holder authorizes the transfer of data to third countries, specifically to the Controller's affiliated companies, with the purposes specified in item 5 (promotion and commercial disclosure activities within the scope of fairs and events in its sector of activity), ensuring, at least, the same rights established in relation to the data transmitted in the national territory.

10. Storage period of the Holder's data

To the extent that the Controller receives data for the processing of contractual relations with the Holder as a buyer of tickets or as an individual as an exhibitor or for the purpose of advertising or for the processing of his participation in an event or contest, the Controller stores his data and deletes them after the event or when the contractual relationship with the Holder is terminated, all mutual rights have been fulfilled and there are no other legal storage obligations or legal reasons justifying the storage.

When the Controller uses the Holder's data in the context of the preparation and negotiation or execution of a contract with a commercial or cooperation partner, the Controller stores the Holder's data and deletes them as soon as they are no longer necessary, for example, when the relationship with the commercial or cooperation partner comes to an end, when the Holder is no longer the interlocutor or in similar situations.

In case of legal obligations to store the data of the Holder, provided that such obligations are applicable and refer to documents with his data, the Controller excludes them upon expiry of the legal period of mandatory storage.

Data conservation may eventually occur in accordance with the terms of article 16 of the LGPD.

11. Necessity of the Holder's data availability

The availability of the data by the Holder and the collection of the data by the Controller for the processing of the contractual relationship with the Holder as a buyer of tickets or natural person as an exhibitor is necessary for the conclusion of the contract.

Without the data it would not be possible to the Controller concluding a contract with the Holder or provide invoiceable services.

The same applies in cases where the Holder wishes an advertising approach or to participate in events, digital platforms or contests promoted by the Controller.

If the Controller collects the Holder's data in the context of contract initiation or fulfillment with a business or cooperation partner, the provision of the data is typically necessary for the contractual relationship with the company for which the Holder works; the Controller would be typically unable to provide services without the data.
