MARKET OVERVIEW

ECONOMY	<p>Regional Outlook: 6th largest economy globally with a combined GDP of USD 3.11 trillion in 2019</p> <p>Thailand's Success Story: Remarkable progress in social and economic development, moving from a low-income to upper-income country in less than a generation</p> <p>Buyer Behavior: 10% average annual retail growth rates over the past decade. Increased sophistication and education in the society, leading to an increased demand for high-quality mother and baby products</p>			
MARKET TRENDS	Growth through premiumisation: Consumers purchasing higher-end products	Rapid urbanisation and dual-income parents: Accelerated trend toward convenience and innovative baby products	ASEAN government initiatives: Increased knowledge about babies' health, nutrition and hygiene	Revolutionised shopping habits: Working mothers are more willing to spend on the comfort and wellbeing of themselves and their children
DISTRIBUTION	Major department stores carry a wide variety of local and imported brands	Increased popularity of specialised nursery and infant product shops due to insufficient sales personnel	Emergence of monobrand stores by established global brands	Impact of social media and e-commerce, offering easy access, convenience and a seamless shopping experience
